Dear Harry,

I was so surprised at hearing from you and that you had helped Posner's lawyers I forgot to ask you about what I'd heard from two sources, that you had also helped Posner prepare for his paperback reprint.

In each case the information was attributed to someone said to be close to you.

Would you care to confirm or deny?

I do not know whether your feeling about Robert extends to his family or not but I've heard that Chris was operated on for breast cancer and is recovering and is getting chemotheraphy.

Sincerely,

Harold
